Our Mission Statement

Top Tier Trees is a vertically integrated organization in the urban forestry and arboricultural industry serving clients who value integrity and excellence. Top Tier Trees was founded with a goal of creating careers to shape lives of young men and women by setting an example of expecting excellence, contributing to our community, and treating each other like family. We aim to provide a sustainable and generous workplace for our employees. Top Tier Trees aspires for growth to make a positive financial and ethical impact on our team and community. What Top Tier Trees started back in 2013... T2 Group is taking to new heights with its goal being to better serve our residential and commercial customers as well as our partners within the market.

Top Tier Trees

WHO'S YOUR ARBORIST?

Top Tier Trees has ISA certified arborists on staff to provide expert recommendations founded in the ethical standards set forth by the International Society of Arboriculture. Our intention is not to "sell tree work" but rather to use our expert knowledge to educate and provide insightful recommendations for your tree care needs. We'd love to be your arborists!

WHY YOUR PROPERTY NEEDS AN ARBORIST

It is standard practice for an arborist to assess your property annually to identify changes in your trees including decay, rot or insect infestation. Your arborist can prioritize and plan for routine trimming according to the needs of the particular species and what is seasonally appropriate. Our Tree Risk Assessment Qualified (TRAQ) Certified Arborists are able to perform thorough risk assessments including Stage 3 Assessments up to aerial inspection and resistograph testing. Other specialty arborist services include lighting rod installation, mechanical bracing such as installation of high tensile strength cables, reporting, diplomatic pursuits and permitting services.

PERMITTING SERVICES

Should your municipality require a permit for tree removal, our certified arborists are prepared to acquire the permit on your behalf.

Our permitting services include: *

- Site visit and/or consultation
- Arborist letter
- Permit processing
- Large scope permitting
- Cataloguing and/or tree inventory plans

Pricing subject to the scope of the project and/or permitting needs

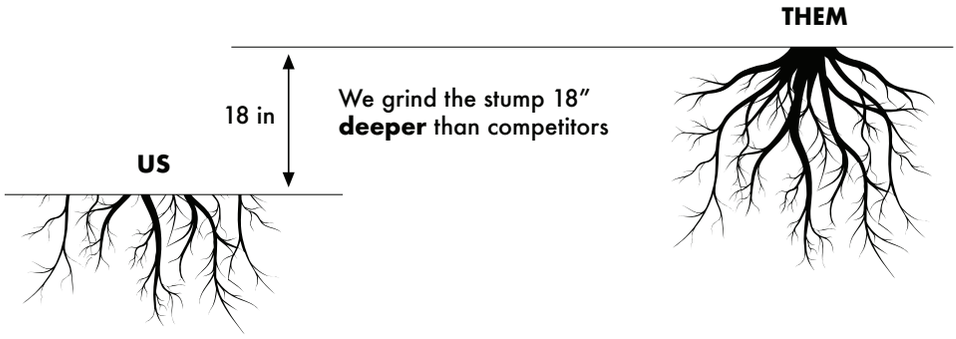
Top Tier Stump Grinding

WHY STUMP GRINDING?

Stump grinding is the final step in tree removal especially if you intend to use that area again. An old tree stump can become a nuisance and get in the way of lawn maintenance or even become a tripping hazard for you or your family. Top Tier Stump Grinding offers a premier grinding service where we grind between 10-18" below the surface. Our goal is to fully remove the core of the stump so that it is no longer an issue.



THE TOP TIER STUMP GRINDING DIFFERENCE:

- Thorough grind every time
- Capable of chasing roots if needed
- Mulch and debris removal available

HOW DOES ACCESS IMPACT PRICING?

The accessibility to the work site is the most critical detail in pricing a stump grinding job because it has such an impact on time. We have the capabilities to overcome most obstacles including fence deconstruction and reconstruction, bridges, high-value plants, pathways, etc.

Top Tier Green Waste

WHAT IS GREEN WASTE REMOVAL?

Top Tier Green Waste is a vegetative waste removal and hauling service that specializes in recycling tree branches, landscape debris, stumps and other organic materials. Additionally, our skilled operators, along with our Top Tier network of vertically integrated forestry professionals, can provide log hauling and resale along with specialty wood delivery within the Atlanta metro area. Top Tier Green Waste serves tree services, landscapers, builders, land clearing projects, and the first phases of larger scale projects that require a white glove approach to a turnkey solution for your waste removal needs.

- 55 yard box with one of the most capable grapple cranes on the market
- Our loads are always squared off and smashed, meaning actually full

Culture of Safety

A key pillar of our business is safety, which is the foundation of everything we do. In our operations, it is not an afterthought, it is a forethought.

Every day, we prioritize the safety of our crews and customers. Our company values and everyday practices have helped us cultivate this culture of safety. In the coming months, we will share how we effectively incorporate safety into our daily projects, team culture, and ongoing training.

- All production team members are required to wear proper PPE at all times.
- Weekly safety training following ANSI 3000 standards and OSHA regulations.
- Production teams follow job site safety protocols and procedures to ensure every job site is safe.

Some honorable mentions of our Culture of Safety include basic first aid and trauma care, defensive driving certifications, chainsaw and machine operator best practices training, and hands on jobsite training with many of our expert managers and leaders.

- Top of the line equipment & tools
- Competitive pricing
- 100% customer satisfaction guaranteed
- Fully insured including workers compensation

Testimonials

"WOW! I cannot say enough good things about this company! It's customer service is exceptional, as is everyone you will deal with here! Erin, my sales rep, was outstanding and very professional. The office staff was great, and the crew was really top notch. Everyone was very conscientious, easy to work with, and truly wanted to provide me with the very best service possible. If I could give these folks a 6th star I would!"

– Michelle Merrill, residential customer

"I work at Queen of Angels Catholic School in Roswell. Top Tier came to our site and removed some trees that had greatly overgrown the area they were planted in. They came and cut down, removed, and ground the stumps down on 5 cypress trees for us. They were extremely professional, on time, and cleaned up the entire site area. I will definitely be using Top Tier for any and all of our tree and debris removal in the future at Queen of Angels. I would recommend them to anyone who asks about tree services. Loved working with them and was very impressed by Top Tier from the beginning of the process all the way through to the end. I did not have a single worry about them the entire time. If you have any tree needs call Top Tier."

– DJ Bledsoe, Queen of Angels Catholic School

"This was truly the most trustworthy and transparent Tree Care experience I have ever had. Not only did I learn about the health of the trees on the property Mathew demonstrated he really cared. I give Top Tier Trees ten stars! Thanks a bunch Top Tier Trees. You made my day even brighter!"

– Kyle Pardner, residential customer

"My name is Jake Mays and I am the Grounds Manager at the Westminster School in Atlanta. I wanted to take this opportunity to speak on the behalf of Top Tier Trees. For the past few years, we have created a great partnership with David Hall and Top Tier through many projects they have completed on our campus. Some of the services they have performed for us were debris removal, tree pruning and inspection, dead tree removal, and clean ups. Their dedicated staff has always put us at the forefront in any emergency situation, when they have been needed. Safety on the job site is always a priority for them, and not just their staff but any other factors that can affect others. The completion of work is always done in a timely manner and never left unfinished. We always have an open line communication with them and I feel that any of their leaders are just a phone call away. Top Tier Trees is one of the best providers that we have worked with here in a very long time. They exemplify a first-class business and we are lucky to have such a great partnership with them.

– Jake Mays, Grounds Manager Westminster School

"We contacted Top Tier Trees because our HOA needed an arborist, and then we needed to get some trees removed and additional clean up work. These guys are awesome! They are professional, respectful of our property and very affordable. They are definitely on our list for our community."

– Homeowners Association President

Our Story, from David and Mandy

T2 Group is a family-owned and operated arboricultural industry leader founded by husband and wife team – David and Mandy Hall. David is an ISA Certified Arborist with nearly 20 years of experience in arboriculture and a passion for being an innovator in the industry.

Top Tier Trees was created from David's passion for tree care, our shared entrepreneurial spirit, and a desire to create opportunities in our community for individuals and their families to serve and thrive. David enjoys staying up to date on industry standards and ensuring 100% customer satisfaction – you've never met someone who takes as much pride as David does in our 5-star reviews!

Mandy loves all the nuances of building and growing the organization – customer service, sales, marketing, team development and financial management. We have built this company on a foundation of trust, excellence, integrity, adaptability, and generosity. We aim to achieve these core values in the environment that we provide for our team and how we serve our customers.

In 2022, we formed a parent company, T2 Group to include Top Tier Green Waste and Top Tier Stump Grinding. Together we serve residential and commercial clients across many industries.

The T2 Group team is comprised of a core group of like-minded executives leading the organization, ISA certified and consulting arborists, expert operators and climbers as well as dedicated production team members who have served in the industry for decades. We all have one thing in common – we strive for excellence in everything we do!
